

# METAL SHOP

## SAFETY DO'S

- Wear safety glasses at all times
- Wear long pants
- Wear close-toed shoes, preferably suede/leather/canvas.
- Wear cotton instead of synthetic ( cotton burns off, polyester melts on )
- Wear gloves when handling hot materials
- Wear ear protection
- Ask an instructor, a monitor, or the shop tech for help
- Bring any safety concerns to an instructor, a monitor, or the shop technician
- Refer to posted warnings near machinery before use
- Be sober, mindful, and kind

## SAFETY DONT'S

- DONT wear shorts!
- DONT wear loose fitting clothing ( entanglement hazard! )
- DONT wear gloves when operating machinery ( entanglement hazard! )
- DONT wear jewelry ( entanglement / degloving hazard! )
- DONT use headphones/airpods in the shop
- DONT look at the welding arc without proper eye protection
- DONT use equipment on which you have not received training

## ALWAYS REMEMBER

- Your safety is more important than a grade
- If you dont know, ASK
- Monitors, instructors, and the shop technician are here for YOU
- Make use of the resources around you.
